

# Michael Sachs, M.D.

PLASTIC & RECONSTRUCTIVE FACIAL SURGERY

# Newsletter 2006

## ONE THOUSAND GREAT SCIENTISTS

Dr. Sachs was honored by his being included in a landmark Publication entitled "One Thousand Great Scientists". He was recognized for his "outstanding contribution to Surgical Science". The book was published by the International Biographical Centre, Cambridge University, Cambridge, England.

## CHINA

The Great Wall

Winter - palace in Beijing

Dr. Sachs has been invited by the Chinese Government through the Chinese Ministry of Health to organize, and develop inter cultural Plastic Surgery educational and research programs between the United States and China.

This collaboration will involve Dr. Sachs to visit China three times per year. He will organize lecture series and live surgical demonstrations in Shanghai, Beijing and Dalian. Dr. Sachs will be responsible for bringing state of the art surgical techniques to China and to teach training workshops to visiting Chinese Plastic Surgeons and Residents in his New York City Clinic.

Dr. Sachs has been invited to take advantage of the phenomenal research facilities in Beijing to lead a team of international scientists studying the use of Stem cells for Plastic Surgery reconstruction.

## MASTERING REVISION RHINOPLASTY

Dr. Sachs' landmark publication *Mastering Revision Rhinoplasty* was published by Springer, New York, N.Y., the oldest, largest and most prestigious medical publisher in the world. This book which took Dr. Sachs 15 years to write has become the Bible of Revisional Nasal Surgery in just a few short months.
